

# Adopt an Animal

Looking for a thoughtful, unique, and beneficial gift for an animal lover?

The BC Wildlife Park's Adopt an Animal Program was introduced as a way for people to financially contribute to the ongoing enrichment and care of an animal of their choosing.

Your adoption is a great way to show your support for wildlife conservation and be a special part of one of our animals' lives!

**Did you know...**  
The BC Wildlife Park is home to the largest burrowing owl breeding program in the world?

The Park is home to 209 animals that came to us because they were orphaned, born in human care, or they came to the Fawcett Family Wildlife Health Centre and their injuries have prevented them from being released back into the wild.

**YOUR HELP MATTERS!**
